

# FEDERAL COVID-19 FUNDING RECEIVED BY NEVADA: JULY 31, 2020

---

In response to the Coronavirus Disease 2019 (COVID-19) global pandemic, federal funding support was developed to assist states responding to local needs to combat the effects of COVID-19 both from a health and safety perspective as well as economic support. The Families First Coronavirus Response Act was signed on March 18, 2020 to assist states by providing funding through existing federal programs. To date, Nevada has received approximately \$65 million through the Families First Act.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law on March 27, 2020, and provides funds through existing federal programs as well as aid provided directly to state and local government, individuals, businesses and other entities in order to address new gaps due to COVID-19 in health response, economic support to businesses, food security and education that were not addressed in the Families First Act. To date, approximately \$13.9 billion has been directed into Nevada through CARES from federal agencies, including \$1.25 billion in direct assistance to state and local governments, although the use of these funds to replace lost state or local revenue is expressly prohibited. Additional funding under the CARES Act is anticipated, but has not yet been disbursed for certain programs, including for example, unemployment assistance.

Other federal legislation directing COVID-19 relief to states includes the Coronavirus Preparedness and Response Supplemental Appropriations Act, which provides emergency funding for public health and health care, and the Paycheck Protection Program and Health Care Enhancement Act that expanded funding for small businesses, hospitals, community and rural health centers, as well as additional funding for testing and contact tracing to support reopening businesses and the economy while continuing to be vigilant about protecting the public.

Nevada has prioritized the COVID-19 response to support the health and wellbeing of Nevadans and to address the financial hardship that many have faced due to COVID-19 related business closures. The Nevada Grant Office is tracking federal COVID-19 funding awarded to or received by any Nevada recipient from many information sources; this information, including categorization determined by the Nevada Grant Office, is subject to change.<sup>1</sup> Questions and comments regarding this report should be sent to [grants@admin.nv.gov](mailto:grants@admin.nv.gov).

## NEVADA'S CORONAVIRUS RELIEF FUNDS

The U.S. Department of Treasury appropriated a total of \$1.25 billion to Nevada from the Coronavirus Relief Fund (established by section 5001 of the CARES Act).<sup>iii</sup> A portion of the State's total allotment was reserved for local governments that have a population in excess of 500,000. As a result, approximately \$295 million was directly allocated to Clark County and an additional \$118.9 million was directly allocated to the City of Las Vegas<sup>2</sup>. The State of Nevada received \$836 million of which a certain amount may be paid to local governments.

This is incorrectly reported as an award and will be removed from next week's report. Though these funds are allocated to Nevada and available to spend by December 31, 2023, legislation is required for Nevada to implement a short time compensation program and to apply for this grant and maximize this allocation to Nevada.
